# THE SWEDEN-CANADA INNOVATION INITIATIVE PRESENTS

## SWEDEN-CANADA INNOVATION DAYS

The Sweden-Canada Innovation Initiative (SCII) creates a broad platform supporting long-term relationships to enable collaboration and foster co-creation of innovation ecosystems between Sweden and Canada. The initiative is a result of the collaboration discussions initiated during the successful seminar "Innovation Through Collaboration" focusing on AI in Montreal, November 2018

SCII will be launched during the Sweden-Canada Innovations Days in November, 2019. The Innovation Days aim to bring together Swedish and Canadian stakeholders from government, industry, research and academia to meet and discuss opportunities for joint innovation projects within three selected areas

### FOCUS AREAS

- Public safety
  - Sea rescue & Port automation
- Mining
  - Interoperability & Automation
- Forestry
  - Forest operations & Emerging bio-based products from the forest

### ACTIVITIES

- Roundtable discussions
- Seminars & presentations
- Matchmaking sessions
- Funding opportunities

### VENUE:

ABB Head office  
800 Boulevard Hymus  
Saint Laurent, (Montréal)  
Québec
